

Internationalization has become an unavoidable tendency of CIHS

The much-anticipated China International Hardware Show (CIHS) 2015 is slated to open its doors to the trade from Oct 21-23 at the National Exhibition & Convention Center (Shanghai, China).

In 2015, CIHS is spanning up to 150,000 square meters comprising 5 Halls in Shanghai's brand new National Exhibition & Convention Center, the world's largest single block building and exhibition complex. The exhibits area is reaching the top in recent years.

As one of the world's most influential trade fairs for the entire hardware industry, CIHS is an unmissable industry fixture for all exhibitors and visitors doing business within or with Asia covering the complete spectrum of products from tools, DIY and building hardware, security locks and fittings and fasteners. As a result, more than 120 foreign exhibitors from over ten countries and regions, including Germany, Italy and Taiwan will converge at the event to tap into the massive regional market. In CIHS2015, Japan, Korea, India pavilion will also join to show their latest technology and products.

CIHS is more than an exhibition. Relevant forum sessions and activities serving to provide a comprehensive trading platform for exhibitors are also to be expected. Furthermore China National Hardware Association (CNHA), Koelnmesse GmbH and The Home Improvement Industry Presidents Council are organizing the Buying Day to enable China & USA to find ways of working closer and better together based on stronger friendship and deeper business cooperation. With the great successful launching in CIHS2014, Buying Day will provide continuously support to CIHS2015.
